

	Safety Data Sheet
1. Identification	
Product Name:	Cedar Atlas Organic Essential Oil
Botanical/INCI:	Cedrus atlantica
Synonyms:	Atlas Cedar,
CAS Number:	8023-85-6
Product Uses:	Personal care, Aromatherapy
Manufacturer/Supplier:	Amrita Aromatherapy, Inc.®
Address:	1900 W. Stone Ave., Suite C Fairfield, IA 52556
Phone:	1(800)410-9651 or 1(641)472-9136
Fax:	1(641)472-8672
Emergency Contact:	Poison Control: 1(800)222-1222
2. Hazard(s) Identification	
Appearance:	Liquid
Signal Word: Statement of Hazard:	Danger
	H226 – Flammable liquid and vapor H304 – May be fatal if swallowed and enters airways H315 – Causes Skin irritation H317 – May cause an allergic skin reaction H412 – Harmful to aquatic life with long lasting effects
Precautionary Statements:	<ul> <li>P264 – Wash hands thoroughly after handling</li> <li>P280 – Wear eye protection/ face protection</li> <li>P301+P310+P331 – IF SWALLOWED: Immediately call a</li> <li>POISON CENTER or doctor/ physician. Do NOT induce vomiting</li> <li>P370+P378 – In case of fire: Use dry sand, dry chemical, or alcohol-resistant foam for extinction</li> <li>P210 – Keep away from heat/sparks/open flames/hot surfaces No smoking</li> </ul>
Aspiration Toxicity:	Category 1
Skin Irritation:	Category 2
Skin Sensitization:	Category 2
Acute Aquatic Toxicity:	Category 3
Chronic Aquatic Toxicity:	Category 3
· ·	Category 3
Flammable Liquids:

	"Naturally the Purest"		
Fire Fighting Procedures:	When possible, prevent environmental run-off. Use self-contained breathing apparatus and protective clothing.		
Fire / Explosion Hazards:	Carbon monoxide, carbon dioxide, acrid fumes, smoke, or flammable vapor may be released during oil fires. Flammable liquid and vapor. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.		
6. Accidental Release Measures			
Health and Safety Precautions:	Personnel involved in cleanup should wear appropriate personal protective equipment (see Section 8). Minimize exposure. Eliminate all sources of ignition and ventilate area using explosion-proof equipment.		
Measures for Cleaning and Collecting:	Absorb spill with non-combustible matter (such as detergentdo not use solvents) and transfer to containers. Clean spill area thoroughly.		
Measures for Environmental Protections:	Do NOT allow to enter the sewer or outdoor environment. Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.		
Additional Considerations for Large Spills:	Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, or diatomaceous earth in drums for waste disposal. Avoid allowing product to reach sewage system or any waterways. Inform respective authorities in case of seepage into sewage system or waterways.		
7. Handling and Storage			
General Handling:	Avoid contact with eyes, skin, mucous and clothing. Wear required PPE. Observe good hygiene guidelines and general safety practices. Do NOT eat, drink, or smoke when handling. Ensure workspace is properly ventilated. Wash hands after handling.		
Storage Conditions:	Store in tightly sealed glass container, away from heat, light, and other sources of ignition; in a well-ventilated, dry and cool location. Keep away from strong oxidizing agents.		
8. Exposure Controls / Personal Pro	otection		
Exposure Limit:	This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.		
Engineering Controls:	Extraction or global ventilation. Equipment should be grounded. Provide eyewash station.		
Environmental Exposure Controls:	Avoid discharging into sewer or environment. Do NOT eat, drink, or smoke near or after handling product.		
Personal Protective Equipment (PPE):	Work clothing worn by personnel shall be laundered regularly. After contact with the product, all parts of the body that have been soiled must be washed		
Hands:	Wear suitable protective gloves (resistant to chemical agents in accordance with standard EN374) in the event of prolonged or repeated skin contact.		
Eyes:	Avoid contact with eyes. Use eye protectors (safety goggles in accordance with standard EN166) designed to protect against liquid splashes.		
Skin:	Use protective clothing as necessary, such as a lab coat.		
Respiratory Protection:	Assure a well-ventilated work area – Use general face covering		
9. Physical and Chemical Properties			
Physical State:	Liquid		
Liquid Color:	Yellowish amber viscous		
Odor:	Camphor cresyl, sweet, woody, cassie and mimosa		

Molecular Weight:         No information           Water Solubility:         Not solubile           Boiling Point (*C):         No information           Vapor Pressure (kPa):         No information           Vapor Density (g/mL):         No information           Flash Point - Liquid (*C):         100 *C           Upper Explosive Limits:         No information           Polymerization:         Will not occur           Specific Gravity 25*C:         No information           Specific Gravity 25*C:         No information           Specific Gravity 25*C:         No information           Specific Gravity 25*C:         0.9250 - 0.940           Refractive Index 20*C:         1.508 - 1.515           O1. Stability and Reactivity         Chemical Stability:           Chamical Stability:         Stable under normal conditions of use.
