

Safety Data Sheet			
1. Identification			
Product Name:	Tangerine Organic Essential Oil		
Botanical/INCI:	Citrus tangerine		
Synonyms:	N/A		
CAS Number:	8016-85-1		
Product Uses:	Personal care, Aromatherapy		
Manufacturer/Supplier:	Amrita Aromatherapy, Inc.®		
Address:	1900 W. Stone Ave., Suite C Fairfield, IA 52556		
Phone:	1(800)410-9651 or 1(641)472-9136		
Fax:	1(641)472-8672		
Emergency Contact:	Poison Control: 1(800)222-1222		
2. Hazard(s) Identification			
Appearance:	Liquid		
Signal Word:	Danger		
Statement of Hazard:	H226 Flammable liquid and vapor H304 May be fatal if swallowed and enters airways H315 Causes skin irritation H317 May cause an allergic skin reaction H319 Causes serious eye irritation H400 Very toxic to aquatic life H412 Harmful to aquatic life with long lasting effects P210 Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. P243 Take precautionary measures against static		
Precautionary Statements:	discharge. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves/protective clothing. P301+P316+P331 IF SWALLOWED: Get emergency medical help immediately. Do NOT induce vomiting. P303+P361+P353 IF ON SKIN (or hair): Take off Immediately all contaminated clothing. Rinse SKIN with water or shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P362+P364 Take off contaminated clothing and wash it before reuse. P370+P378 In case of fire: Use Foam, Dry chemical, Carbon Dioxide, B class Extinguishers to extinguish. P391 Collect spillage. P403+P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.		
Aspiration Toxicity:	Category 1		
Skin Irritation:	Category 2		
Skin Sensitization:	Category 1B		
Eye Irritation:	Category 2		
	Category N/A		
Eye Damage:	Category IN/A		

Acute Aquatic Toxicity:  Chronic Aquatic Toxicity:  Flammable Liquids:  Classification according to EU Directives 67/548/EEC or 1999/48 Section, see Section 16.	Category 3 Category 3			
Classification according to EU Directives 67/548/EEC or 1999/4	Category 3

3. Composition / Information on Ingredients				
Ingredients List: 100% Organic Tangerine Essential Oil				1
Component	CAS Number	Weight %	Classification 1272 / 2008	REACH Number
d-Limonene	5989-27-5	<=95%	FL3, AspT1, SI2, SS1B, AA1, AC3	227-813-5
Gamma terpinene	99-85-4	<=3%	FL3, AspT1	202-794-6
Myrcene	123-35-3	<=2%	FL3, AspT1, SI2, EI2, AC3	204-622-5
(See Section 8 for	Exposure Limit	s)		
4. First Aid Measures				
	Seek medical attention in case of any discomfort. Observe risk of aspiration if vomiting occurs. May cause lung damage if swallowed.			
•	Remove contact lenses. Flush repeatedly with water for 15 minutes; contact physician			
	Remove contaminated clothing, wash with water and soap. Contact physician if redness or irritation develop.			
	''' B'	o out mouth	Do NOT give wate	r or milk

	"Naturally the Purest"		
	unless directed by medical professional. Contact POISON CENTER or doctor immediately.		
Inhalation:	Remove to fresh air and contact a physician if symptoms such as wheezing, coughing, shortness of breath, or burning in the mouth, throat chest occur.		
5. Fire Fighting Measures			
Extinguishing Media:	SUITABLE: Foam, Dry chemical, Carbon Dioxide, B class Extinguishers NON-SUITABLE: Water Jet		
Hazardous Combustion Products:	Carbon Dioxide and Carbon Monoxide		
Fire Fighting Procedures:	When possible, prevent environmental run-off. Use self-contained breathing apparatus and protective clothing.		
Fire / Explosion Hazards:	Carbon monoxide, carbon dioxide, acrid fumes, smoke, or flammable vapor may be released during oil fires. Flammable liquid and vapor. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.		
6. Accidental Release Measures			
Health and Safety Precautions:	Personnel involved in cleanup should wear appropriate personal protective equipment (see Section 8). Minimize exposure. Eliminate all sources of ignition and ventilate area using explosion-proof equipment.		
Measures for Cleaning and Collecting:	Absorb spill with non-combustible matter (such as detergentdo not use solvents) and transfer to containers. Clean spill area thoroughly.		
Measures for Environmental Protections:	Do NOT allow to enter the sewer or outdoor environment. Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.		
Additional Considerations for Large Spills:	Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, or diatomaceous earth in drums for waste disposal. Avoid allowing product to reach sewage system or any waterways. Inform respective authorities in case of seepage into sewage system or waterways.		
7. Handling and Storage			
General Handling:	Avoid contact with eyes, skin, mucous and clothing. Wear required PPE. Observe good hygiene guidelines and general safety practices. Do NOT eat, drink, or smoke when handling. Ensure workspace is properly ventilated. Wash hands after handling.		
Storage Conditions:	Store in tightly sealed glass container, away from heat, light, and other sources of ignition; in a well-ventilated, dry, and cool location. Keep away from strong oxidizing agents.		
8. Exposure Controls / Personal Pro	tection		
Exposure Limit:	This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.		
Engineering Controls:	Extraction or global ventilation. Equipment should be grounded. Provide eyewash station.		
Environmental Exposure Controls:	Avoid discharging into sewer or environment. Do NOT eat, drink, or smoke near or after handling product.		
Personal Protective Equipment (PPE):	Work clothing worn by personnel shall be laundered regularly. After contact with the product, all parts of the body that have been soiled must be washed		
Hands:	Wear suitable protective gloves (resistant to chemical agents in accordance with standard EN374) in the event of prolonged or repeated skin contact.		

	"Naturally the Purest"		
Eyes:	Avoid contact with eyes. Use eye protectors (safety goggles in accordance with standard EN166) designed to protect against liquid splashes.		
Skin:	Use protective clothing as necessary, such as a lab coat.		
Respiratory Protection:	Assure a well-ventilated work area – Use general face covering		
9. Physical and Chemical Proper	ties		
Physical State:	Liquid		
Liquid Color:	Yellow orange to orange red.		
Odor:	Characteristic		
Molecular Weight:	No information		
Water Solubility:	Not soluble		
Boiling Point (°C):	No information		
Vapor Pressure (kPa):	No information		
Vapor Density (g/mL):	No information		
Flash Point – Liquid (°C):	47°C		
Upper Explosive Limits:	No information		
Lower Explosive Limits:	No information		
Polymerization:	Will not occur		
Specific Gravity 25°C:	No information		
Specific Gravity 20°C:	No information		
Refractive Index 20°C:	No information		
10. Stability and Reactivity			
Chemical Stability:	Stable under normal conditions of use.		
Conditions to Avoid:	Keep away from heat, spark, flames, and all other sources of ignition		
Incompatible Materials:	Strong oxidizing agents and strong inorganic acids		
11. Toxicological Information			
General Information:	Product does not present an acute toxicity hazard based on known or		
	supplied information.		
	Aspiration hazard: May be fatal if swallowed and enters airways		
Irritation / Sensitization:	Causes skin irritation		
	May cause an allergic skin reaction		
Chin Abanestian	Causes serious eye irritation		
Skin Absorption:	No adverse effects with normal skin. However, potentially harmful amounts of material may be absorbed across markedly abraded skin when contact is sustained.		
Carcinogen Status:	Carcinogenicity of the mixture has not been determined. Not listed as carcinogens by IARC, US OSHA or NTP.		
12. Ecological Information			
Environmental Overview:	The environmental characteristics of this mixture have not been fully		
	evaluated. Releases to the environment should be avoided.		
Eco-toxicity Effects:	Very toxic to aquatic life, harmful to aquatic life with long lasting effects.		
Persistence and Degradability:	Biodegradation is expected		
Bio-accumulative Potential:	Bioaccumulation is unlikely		
Mobility in Soil:	Not Determined		
Other Adverse Effects:	Avoid exposure to marine environments and waterways		
13. Disposal Considerations			
Waste Treatment Methods:	Releases to the environment should be avoided. Review and implement		

appropriate technical and procedural wastewater and waste disposal measures to prevent occupational exposure or environmental releases. Waste from a spill: Contain the source of spill if it is safe to do so. Collect spill with absorbert material. Place waste in an appropriately labeled, sealed container for disposal. Clean spill area thoroughly. Care should be taken to avoid environmental release.  14. Transport Information  The following refers to all modes of transportation unless specified below. This material is regulated for transport under DOT, ADR. IMDG, and IATA regulations.  UN Number:  1169  UN Proper Shipping Name: Extracts, aromatic, liquid  Transport Hazard Class(es): Flammable Class 3  Packing Group: Flash Point (*C): 47°C  Marine Pollutant: Yes  15. Regulatory Information  EU Symbol:  EU Indication of Danger: F - Flammable Xn - Harmful Xi - Irritant N - Dangerous for the environment  EU Risk Phrases: FI O Flammable R22 Harmful if swallowed R36/38 Irritating to eyes and skin R43 May cause sensitization by skin contact R50 Very toxic to aquatic organisms R52/63 Harmful to aquatic organisms, may cause long-term adverse effects in the aquadic environment  EU Safety Phrases:  57/9 Keep container tightly closed and in a well-ventilated place. S16 Keep away from sources of gintion - No smoking S24/25 Avoid contact with skin, take off immediately with plenty of water and seek medical advice S27/28 After contact with skin, take off immediately with plenty of soap. S29/56 Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point S36/37 Wear protective clothing and waste with skin material and its container at hazardous or special waste collection point S36/37 Wear protective clothing and gloves S27/18 After contact with skin, take off immediately and show this container or label where possible  OSHA Label: Danger  OSHA Label: Danger  Not full to mark/Exempt  COSHA CLOSH: Not present	"Naturally the Purest"
